

## Product 512248

### **512248 Active holder with cig-plug** With tilt swivel.

The active holder charges your battery when it is in the holder. The charging device connects to the unit automatically when you put the unit in the holder. The holder is attached onto a tilt swivel and can be adjusted in order to avoid light reflection. Connects to the vehicle's cigarette lighter socket, 12/24 Volt. Attach onto a ProClip Mounting Platform.

EAN: 7320285122482

### **Item no 512248 fits:**

HTC ThunderBolt (For USA)

## INSTALLATION INSTRUCTIONS

1.

2.

3.

4.

Please read all of the instructions and look at the pictures before attaching the holder.

1. Loosen the screw in the center of the holder so you can remove the tilt swivel attaching plate on the back. Place the attaching plate onto the desired position. Screw the attaching plate into place with the enclosed screws.

2. Place the holder over the attaching plate so the screw fits in the hole in the tilt swivel. Screw a few turns on the screw, just so the thread starts to pull. Pull the holder toward you and hold it slightly tensed, in the same time tighten the screw so the holder is pulled toward the tilt swivel. Tighten the screw firm at first, then loosen it a bit so the holder is firmly in place, but still can be adjusted.

3. Slide the device sideways into the holder until you hear / feel it snaps into place.

4. The holder is in place.
